

Many thanks to the 764 donors who contributed to the *St. Louis Public Library* and its Foundation during Fiscal Year 2003 (October 1, 2002 to September 30, 2003). This support includes membership in the Friends, contributions to the Tribute Fund to enhance the Library's collections, various restricted and unrestricted gifts as well as a number of bequests.

During this time period, the St. Louis Public Library Foundation was the beneficiary of a very generous bequest of \$545,350 from an anonymous donor for the purpose of providing books and public events that will foster greater inter-group understanding. Gifts like this are crucial for the Library's future. Anyone interested in learning about including our Library in his or her will can contact the Foundation office at 539-0360.

In 2002, the Library board reorganized its Foundation, which was founded in 1989. The Foundation's primary objectives are to support the Library's programs and services by fundraising and building relationships with others who share a passion for the work of the St. Louis Public Library, and to prepare for and implement a major capital campaign to support the complete re-creation and modernization of Central Library, built in 1912 and designed by the famed American architect Cass Gilbert.
