NOTES:

New soilless mix needs to be added. What is on site now is a type of soilless mix – it is not soil

Plants receive regular upkeep treatments to deter pests and they are bug free as of now

Plants are healthy and well shaped

Adding more plants so that less soil would show would be attractive

The large selloums have very large root balls and require new planters – they need to be substantial in size... at least 24"-30" in diameter...so that additional soilless mix can be added.
